Season begins
September 5th

Season 25 begins!

Join us on August 25th for our 25th season celebration.

Stop in to say hi, register for classes get your dance wear for the new season, and enjoy some refreshments. Thank YOU for 25 years!

When you register you'll find we renamed some of our classes to better fit our curriculum. Some of the changes are— all Teeny-Tiny classes are now 1-hour long combo classes, either Ballet & Tap or Ballet & Acrobatics. We've also added a technique-only ballet class for those dancers that need the ballet training but prefer not to perform a ballet piece. Please do not focus on class names where your dancer is placed. We place students in classes according to individual abilities and take age or grade in school as a secondary factor. We always say "do not compare yourself to others, focus on your own accomplishments."

And...What are you doing this summer?

There's still time to register for summer session and camps. Summer classes are a great idea to keep up dancers' technique as well as try something new. —We'll be offering camps, intensives and workshops for all ages as well as regular evening classes. There is no official registration day for summer classes— just email us that you plan to attend to confirm your classes, fill out and return your summer registration form with payment and you're set!

Why is summer dance is so vital?

- ◆ You continue your technique
- ◆ Your body stays conditioned
- ◆ Taking the summer off means resuming in the fall from 3 steps behind.
- ◆ Dancers can grab the extended time and concentrate on more intricate things
- ◆ Training in the summer confirms that being a dancer is part of your life-style.
